AZ MARMI si sviluppa verso gli anni 80 e, all'inizio della sua attività, si specializza nella produzione del MARMO ANTICATO quale: Burattato, Rinascimento e Patinato.

Oltre ai prodotti e lavorati tradizionali come: Lastre, Mosaici, Scale, Bordure, Pavimenti, Rivestimenti e Lavorati in genere, presenta una nuova lavorazione "L'Effetto Tempo" nata per far risaltare le venature del marmo e dargli un aspetto raffinato ed elegante.

La cosa essenziale ed importante da dire è che il marmo viene lavorato artigianalmente, senza l'uso di prodotti chimici per ottenere un aspetto anticato, come consumato dal tempo.

Questo catalogo nasce dalla ricerca continua di AZ Marmi per proporre grandi formati e nuove finiture che soddisfano ed anticipano le moderne tendenze di architettura e design.

L'obiettivo della nostra Azienda è soddisfare tutte le richieste della clientela realizzando qualsiasi progetto su disegno.

AZ MARMI active since the early 80's, initially focuses his production towards antique marbles, tumbled, brushed and glossy.

Besides traditional items, such as slabs, mosaics, stairs, borders and floors, walls and any kind of custom works, AZ Marmi introduces a new formula called Effetto Tempo, born to enhance the natural veining of marbles and give them a sophisticated and elegant taste.

Most importantly and essential, are the artisan touch and craftsmanship, obtained without the use of acid in order to create a naturally aged look.

This catalog adresses itself to the need for endless research to promote large formats and new textures, to satisfy and anticipate the latest trends in architecture and design.

Our goal is to fulfill the desires of our clientele by delivering quality in custom made projects.

AZ MARMI wir in den 80er Jahren gegrundet. Am Anfang Ihrer Taetigkeit spezialisiert sich die Firma auf die Herstellung antiken Marmors, wie getrommelt, rinascimento und patiniert.

Ausser der herkoemmlichen Produkte und Fertigarbeiten wie Unmassplatten, Mosaike, Treppen, Bordueren, Bodenplatten, Verkleidungen, stellt AZ MARMI eine neue Oberflaechenbearbeitung „Effetto Tempo“ vor, eine Bearbeitung, die die Struktur des Marmors hervorhebt und ihm ein feines und elegantes Aussehen verleiht.

Die Hauptanmerkung hierzu ist, dass das Material handwerklich, ohne Verwendung von chemischen Produkten bearbeitet wird, um dem Marmor ein antikes Aussehen zu verleihen.

Dieser Katalog wird auf Grund fortlaufender Nachforschungen durch AZ MARMI entwickelt, um grosse Formate und neue Oberflaechenbearbeitungen anbieten zu koennen, damit die Tendenz der modernen Architektur und des modernen Designs der Zukunft zufriedengestellt werden kann.

Die Hauptaufgabe unserer Firma ist es, alle Anfragen unserer Kunden zu befriedigen und auch Projekte nach technischen Angaben zu realisieren.

GAMMA CROMATICA / RANGE OF COLOURS / FARBPALETTE

La finitura burattata è caratterizzata da una superficie consumata, con bordi ed angoli arrotondati, come avviene per i ciottoli nei fiumi, trasportati dalla corrente per molti anni.

"Tumbled" finish is characterized by an aged rustic surface, where edges and corners are rounded such as natural river rocks.

Die Charakteristik der getrommelten Oberflaechenbearbeitung ist eine abgenutzte Oberflaechе mit abgerundeten Kanten und Ecken, wie sie z. B. bei der Abreibung der Steine durch die Stroemung der Fluesse ueber Jahre entsteht.

GAMMA CROMATICA / RANGE OF COLOURS / FARBPALETTE

La finitura patinata si ottiene tramite un processo di spazzolatura che mette in risalto la vena naturale della pietra e ne addolcisce la superficie e i bordi.

"Patinato" finish is a brushing process to enhance natural veins of the stone and give surfaces and edges a smoother look and touch.

Die Oberflaechenbearbeitung patiniert (gebuerstet) erhaelt man durch den Vorgang des Buerstens, der die natuerliche Sturktur des Materials hervorhebt. Dadurch erscheinen Oberflaeche und Kanten weicher.

Biancone - Rosa Perlino

GAMMA CROMATICA / RANGE OF COLOURS / FARBPALLETTE

La finitura "Rinascimento" è caratterizzata da superficie consumata e da bordi ed angoli arrotondati. Si ottiene con una lavorazione abbinata alla burattatura che rende la superficie più morbida e semilucida.

"Rinascimento" finish is characterized by an aged surface and rounded edges. Obtained from an aging process combined with tumbling to make surface softer and semi-polished.

Die Bearbeitung Rinascimento wird durch eine abgenutzte Oberfläche mit abgerundeten Kanten und Ecken charakterisiert. Diese Oberflächenbearbeitung erreicht man durch eine geeignete Zusatzbearbeitung, die ausser dem Trommeln angewandt wird, um die Oberfläche weicher und fast glaenzend erscheinen zu lassen.

cm 45x120	18"x47"

Travertino Scabas

GAMMA CROMATICA / RANGE OF COLOURS / FARBPALLETTE

La finitura "Effetto Tempo" ricorda i pavimenti delle antiche cattedrali nelle quali il calpestio prolungato ha consumato le parti tenere e ne ha conservato quelle più dure. L'effetto è quello di una superficie satinata e bombata da bordi con angoli dritti.

"Effetto Tempo" finish reminds floors of old cathedrals where over stepping wore down the softer parts of the stone and preserved the hardest ones. Surface has a satin look where edges are lighted rounded and corners are straight.

Die Oberflächenbearbeitung "Effetto Tempo" erinnert an die Böden der antiken Kathedralen in denen durch ständigen Abrieb des Plattenbelages die weicheren Stellen abgenutzt und die härteren Stellen erhalten wurden. Diese Bearbeitung lässt die Oberfläche satiniert mit gewölbten Kanten und geraden Ecken erscheinen.
